Education

East Tennessee State University
Bachelor of Science, Computer Science, May 2001

Johnson City, TN

Professional Experience

Freelance Web Development
Front End Programmer

Greeneville, TN
2011 - Present

Working remotely with clients primarily in the US and Australia to fulfill a variety of needs specializing in custom jQuery solutions. Examples include JSONP driven widget development, forks of open source jQuery plugins and client requested jQuery plugins.

Speculative Web Development
Full Stack Programmer

Greeneville, TN
2010 - Present

Self-sourced full stack speculative development including open source jQuery plugins on Github, Google App Engine Java backend driven web applications, Blogger widget/gadget development and JavaScript applications in both jQuery and Dojo Toolkit.

Speculative Web Development
PHP5 & JavaScript Programmer

Knoxville, TN
2005 - 2007

Speculative development focused primarily on the Content Management System and Blogging space utilizing Object Oriented PHP 5 and AJAX heavy JavaScript.

Covenant Health
Programmer/Analyst, Junior and Staff level

Knoxville, TN
2003 - 2005

Worked on Object Oriented classic ASP projects to improve business processes, provide data analysis tools and create digital replacements for hard copy documents. Also provided user support for existing Cold Fusion code base and support/optimization of digital document archive system McKesson LaserArc.

Skills

JavaScript: Modular jQuery, Dojo Toolkit OO with declare, DOM API, AJAX, JSON(P)
